RE: Invitation to public discussion / conference / debate as speaker

Dear Mr. / Ms / Dr. Name of MEP

I am writing on behalf of the section of [insert city/ country] of the Union of European Federalists (UEF) Young European Federalists (YEF), a non-governmental and supranational organisation founded in 1946, dedicated to the promotion of a democratic and federal Europe. A movement of 40,000 citizens that cooperates with European, national and local institutions, parties, and associations. Our supporters come from all hues of the political spectrum and today we invite you to a forthcoming public discussion / conference / debate themed: "Name of your Action / Event".

In continuation to the demands we have presented to the 2014 European election candidates, we reach out to the new Parliamentarians in our city/ town/ region/ constituency to present and discuss the demands of the federalist movement, namely:

1. Further integrating the Eurozone, progressing towards a fiscal, economic and political union
2. to develop tools and resources to implement European policies that foster growth, particularly through further integration of the single market and European investments in projects of European interest, and
3. to address the crucial issues of the democratic legitimacy of fiscal and budgetary policies with a reform of the institutions of the EU and the Eurozone.
4. to engage against Euro-scepticism.

Should you not be able to participate, we would be pleased to have a bilateral meeting with you to present ourselves and discuss forms of potential cooperation in name of town/region/ constituency.

You can confirm your attendance by replying to the following email address: insert email address of your section

Join us and thousands of Federalists throughout Europe and take the lead in re-launching the European project!

Sincerely yours,

## Back

**"FEDERAL UNION NOW!"**

The European Federalists believe that a decisive move towards a federal EU is needed, where decisions are taken at the most rational and efficient level, but as close as possible to citizens. We believe that only a coherent and strong government could tackle the current crisis.

WE CAMPAIGN FOR:

a united democratic Europe  
 federal economic government reinforced fiscal policies  
 reinforced economic policies EU-wide growth and development  
 power to European level reformed EU's financial system  
 fiscal Union EU treaties reforms

During the times of the crisis many politicians on a national and European level have called for 'more Europe', deeper integration and a genuine fiscal union based on solidarity. We have collected these statements in a unique collection. The testimony comes from an individual not affiliated with the campaign "Federal Union Now!", and was taken from publicly available sources.

Supported by the European Commission.
